## Getting the word out:

How do you let others know what's important to you. One way to do this is to either put your thoughts in writing or to speak them like in a radio show. After all that's what we do with this newsletter and others do on radio and television shows. Do you have to tell others things? Do you tell them as a courtesy? Is your speaking a requirement or necessity?

Who are we speaking for? Do we speak for ourselves or others? I suppose some of us speak for ourselves, others speak for the masses and some say some don't speak at all. What sort of speaking are you doing?

It's a known fact that something or someone will speak whether it's you or someone else. It will happen and not only that but it must happen. These are our ideas on this.

*Tell us yours*

## Radio News

Twitter: We are at: #WNPFM101Radio or @WNPFM101Radio. Tweet us, and if we can we'll collaborate on it in this weekly newsletter. We're playing the hits

## What's Hot & What's Not

Do you think about songs lyrics about? What are these people talking about? Do you think it's their own surroundings. Maybe it's about low class housing and no jobs or something else. How has this changed in the last few years?

We'd have to do a study and get some real numbers to say whether it has in fact changed and in what way or if that is even the situation. But you might look in the areas where you are and see how they've changed.

But more than that people tell a story in song or of a love of something or someone. Do you think a piece of music could exist with just the beat? Some do in instrumental music. So, what's the story in your song. See if you can find one.

E-mail us your thoughts.

## Non-profits & 501(c)(3)s

Grantwriting/proposal writing/non-profits (including FBOs)

## What

Reprint—Your Non-profit's Role Part 1

Have you forgotten about the role of your non-profit organization? Many organizations need a new roadmap—and need it now for success. Everyone can and does get worn out with their busy lives. This can happen for many reasons. The question becomes: When you are worn out what do you do? We'd say:

- Take a timeout from some of the things you have to do.
- Try to be present, though, if you can.
- Do not leave your responsibilities unattended.
- Let others stand in for you.

Have you thought about the time you spend in your non-profit organization? If so, it may be time to let someone else lead for a while. If you are somewhat worn out especially because you have spent so much time working in one organization doing the things above will allow you to relax. Almost everyone needs to relax. Then, you can help by watching. E-mail the Grant Writer / View Our Newsletters.
